5 O'CLOCK EDITION.

Value of a Trade.

Any one casting an eye around Reno must be struck by the fact that very few of our young men are learning trades. They show a desire to get a clerkship in a store or any kind of a job where they can earn wages without an apprenticeship. This is a very shortsighted policy, because any position that can be filled without special training will always be cheap, and there is no place above it for an ambitious young man to aspire to. All such should seek a business where there is room to expand—where brains and energy can find material to work on. There is no limit to the development, for instance, that a brainy carpenter can make. He begins by doing rough work and may end in art carving or elegant finishing that will make him immortal. The mechanician has a field for good workmanship that insures him the top wages always. When he puts brains with his experience he has opportunity for inventions that will enrich mankind. It is so in every trade, and yet boys forego the benefits rather than serve an apprenticeship. They forget that their few months of apprenticeship is to be rewarded by a lifetime of independence. They are apprentices for two or three years and follow the trade for forty or fifty, so they ought to stand some hardship willingly for the time being. But, above all other considerations, the statistics show that the criminal class is composed almost entirely of persons who never had a trade. In all the penitentiaries where a record is kept it is shown that not one in five of the inmates ever had one. Of course, there is not as good an opportunity in Reno as there is in a large manufacturing city, but we hope our boys will not neglect the chances that do offer, and in time they will increase. We regard this matter as the most important that presents itself to a young man, and we always feel like doing all we can to help such to decide rightly.

SO DISTINGUISHED a man as Prof. Barnard of Columbia College has deemed the matter of cigarettes smoking by children to be worthy his profound attention. He says that the habit is undermining the health of the rising generation to a far greater extent than the general public realize. One of the evils is the craving it creates for opiates, for nearly all cigarettes are drugged. He also declares that so monstrous is the evil as disclosed by his investigation, the law-making power must grapple with it, or prepare for a hospital system for the wrecks of the habit, which will be of vast proportions and enormous and ever-increasing cost.

AN exchange asks: Is chivalry off on a vacation? Not content with lynching a woman in Wyoming, the vigilantes have whipped a mother and daughter in Indiana within an inch of their lives. The complaint in the latter case was that the women were a little too free with their tongues. Perhaps they were. But the avengers ought to be punished, and right

President Mack formally welcomed the President to Lawrence, and the President bowed a response. Again the crowd cheered with cries, "long live the President," and the train moved out.

At South Berwick, on the Maine side of the river, the New Hampshire officials retired and those of State of Maine took their places as escort to the President. At Old Orchard the summer residents and permanent population turned out en masse and gave the President a hearty reception.

At Haverhill there was a big crowd, a great arch of welcome, cheers, canons etc. The Brother Jonathan Club presented the President with a basket of flowers which he acknowledged in a few words. These scenes were repeated at Exeter, New Hampshire, where the President shook hands with the surging, jostling crowd.

At the depot at Portland, Me., the President was greeted by a great crowd. Hon. T. B. Reed introduced the President, and the latter bowed amid great cheering. Next came Brunswick and another crowd, more cheering and a salute of twenty-one guns. At Augusta the gentlemen who joined the train were Mayor Lane, Postmaster Manley, Hon. John Stevens, Minister to the Sandwich Islands, and National Committee J. Manchester Haynes.

ONE argument advanced in favor of New York for the world's fair is that there are more sights there than in any other city in the Union. Most of them, however, are sites of unfinished monuments.

TRAIN ROBBED BY ONE MAN.

MINNEAPOLIS, August 8.—The Wisconsin Central passenger train from Chicago, which passed Chippewa Falls at 4 o'clock this morning, was held up and robbed by a single man between Chippewa Falls and Abbotsford half an hour before. At the hour named a man entered one of the sleeping cars of the train and commanded the conductor and porter to throw up their hands, and then proceeded to go through them, taking all they had. One passenger was also robbed, and a shot or two was fired at the porter, but no one was hit. The robber pulled the bell rope as soon as he had completed the robbery, and, when the train came to a stop, jumped off and escaped.

The man is described as having the appearance of a woodsman. He wore a slouched hat, carried a gun, and had a big knife in his belt. He entered the sleeper and drove the porter to one end of the car. The porter did some yelling to awaken the passengers, whereupon the robber fired. This put a quietus on the porter. The robber took \$30 and a silver watch from the conductor, a gold watch and a small amount of money from the porter, and from a passenger some money and a watch. He tackled another passenger, but the latter told him the conductor had all his money. As a matter of fact, however, the man had \$500 on his person.

DENVER, Colo., August 8.—No trace has yet been found of the Thompson Springs (Utah) train robbers. Both the Rio Grande Railway and express company will offer large rewards for the capture of the outlaws, and several well-organized posses have left Grand Junction and Green River in pursuit. It is the opinion of the officers that the robbers are the same gang who some months ago successfully held up the Telluride, Colo., National Bank for \$40,000.

The President and Party.
BOSTON, August 8.—A special train with the President and party pulled out of the Boston & Maine depot at 9 o'clock this morning, en route to Bar Harbor. Large crowds witnessed the departure, which was made to an accompaniment of a salute by a battery and the continued cheers of the crowd.

President Harrison arose much refreshed this morning and pleasantly received the early greetings of the members of his party and his hosts, representing the State and city.

A late breakfast was served in the ebony room of the Vendome, and shortly after 8 o'clock the party entered carriages, and with a cavalry escort, drove through the streets to the depot to a rattling accompaniment of cheers. The first demonstration after the departure from Boston, was made at South Lawrence. The train stopped there this morning and the crowd around the depot cheered and as the train stopped the guns thundered a salute, flags waved and the bands played. The President went to the rear of the car and shook the hands of hundreds of people. Gov. Goodell, of New Hampshire, and staff, joined the train at this point.

President Mack formally welcomed the President to Lawrence, and the President bowed a response. Again the crowd cheered with cries, "long live the President," and the train moved out.

At South Berwick, on the Maine side of the river, the New Hampshire officials retired and those of State of Maine took their places as escort to the President. At Old Orchard the summer residents and permanent population turned out en masse and gave the President a hearty reception.

At Haverhill there was a big crowd, a great arch of welcome, cheers, canons etc. The Brother Jonathan Club presented the President with a basket of flowers which he acknowledged in a few words. These scenes were repeated at Exeter, New Hampshire, where the President shook hands with the surging, jostling crowd.

At the depot at Portland, Me., the President was greeted by a great crowd. Hon. T. B. Reed introduced the President, and the latter bowed amid great cheering. Next came Brunswick and another crowd, more cheering and a salute of twenty-one guns. At Augusta the gentlemen who joined the train were Mayor Lane, Postmaster Manley, Hon. John Stevens, Minister to the Sandwich Islands, and National Committee J. Manchester Haynes.

ONE argument advanced in favor of New York for the world's fair is that there are more sights there than in any other city in the Union. Most of them, however, are sites of unfinished monuments.

A PRETTY GOOD STEAL.

NEW YORK, August 8.—Eben S. Allen, who, until a few days ago, was President of the 42d and Grand Street Ferry Railroad Company, was brought to the Tomb Police Court this morning charged with forgery, in issuing certificates of stock of the company to the amount of \$100,000. The accused was held in \$100,000 bonds, in default of which he was locked up. Allen seemed very cool and admitted the issuing of 700 shares of stock and getting the benefit of it, but denied forging the signatures of John Green and Charles Curtis, former Presidents of the company.

Great Loss by Fire.

Special to the GAZETTE.

SAN FRANCISCO, August 8.—The Japan Gazette by the steamer Arabic, says 100 persons were drowned and 12,000 houses washed away and 2,500 acres of cultivated land seriously damaged, in four of the seven cantons which suffered most from the overflowing of the river Chikugo in Tukeokaken by the recent heavy rains. Relief funds have been started in various parts of the Empire.

A "Peeping Tom."

ELIZABETH, N. J., August 8.—There is a mysterious man here known as "Jack the Peoper." It is thought he is a sort of monomaniac on the subject of gazing at women's charms. Within the past four months he is known to have entered 3,000 houses. He goes armed, but his object is not robbery, for he has never taken anything. He always seeks out women's bedrooms, to nearly every instance they have been awakened by his entrance, but he has always managed to escape, and has eluded the vigilance of the whole police force.

Wonderful Performance.

BALTIMORE, August 8.—On a two-mile circular track a speed of two miles a minute was this afternoon maintained for about ten miles by a three-ton motor of the Electric Automatic Transit Company of Baltimore. This speed equals three miles per minute on a straight track. Edison pronounced it the greatest conception since telegraphy.

Burglars Arrested.

Special to the GAZETTE.

SAN FRANCISCO, August 8.—Pat Kilian, the pugilist, and several of his party were arrested at the theatre last night while giving a sparring exhibition. They were afterwards released on bail. Captain Short, who made the arrest, said it was caused by Kilian's offering to knock out a man in four rounds.

WASHINGTON, August 8.—Secretary Noble has requested the War Department to take the necessary steps to keep intruders from the Sioux reservation. This action is taken in anticipation of a rash of settlers; now that the success of the Sioux Commission is assured.

Three More Bodies Found.

JOHNSTOWN, Pa., August 8.—Three more bodies have been taken out of the ruins near the lower end of town.

Bar silver, 92 1/2.

DID NOT GET THE EXPRESS.

DENVER, August 8.—A special received this afternoon says that the Rio Grande & Western train No. 3 was held up near Parvase last night by train robbers. They forced the fireman to attempt to chop through the door of the express car and made the engineer bring a bag to hold the plunder. Messenger Willis was ready with a magazine shotgun and two self-cocking revolvers. The fireman was unable to chop through the boiler iron door, so the robbers fired a dozen shots through. Messenger Willis lay on the floor and was not hit. The robbers then joined two others and went through the train with their revolvers drawn and gathered \$900 and twenty watches.

A posse has gone from Green River. Two Deputy U. S. Marshals went on this morning from Salt Lake with bloodhounds.

The Alaskan Boundary.

TORONTO, August 8.—The geodetic surveying party sent out by the United States Government to definitely determine and establish the Alaskan boundary are now at work. They stopped at Onalaska, where soundings were made and the variations of the magnetic needle ascertained. The surveyors, with their stores, disembarked at the mouth of the Yukon river and proceeded on their way to the interior. The Department is thinking of sending an expedition to assist the United States party, but nothing as yet is definitely settled. If matters are satisfactorily arranged, a party will start next month, proceeding by boat up the Yukon river, winter there, and continue their operations next year.

Strong Evidence Against Burke.

CHICAGO, August 8.—An afternoon paper says that Chief McRae of the Winnepeg police force will be a witness at the trial of Burke, the Cronin suspect. He states that he won Burke's confidence during the latter's sojourn in Winnipeg, and that the prisoner made important admissions to him. The authorities here are confident that Burke will confess.

State's Attorney Longenecker said to-day:

"We have evidence against Burke that cannot be controverted."

Confirmed.

The favorable impression produced on the first appearance of the agreeable liquid from the Syrup of Syria has been far more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers—the Cal. Fig Syrup Company.

A GENEROUS MAN.

Matt. McCabe, of New Brunswick, Ill., offers to pay five dollars to any person troubled with bloody flux, who will take Chamberlain's Colic, Cholera and Diarrhoea Remedy according to directions and does not get well in the shortest possible time. One-half of a 25-cent bottle of this remedy cured him of bloody flux; after he had tried other medicines and the prescriptions of physicians without benefit. Mr. McCabe is perfectly safe in making this offer, as more than a thousand bottles of this remedy have sold each day, and it has never been known to fail in any case of colic, cholera morbus, dysentery, diarrhea or bloody flux, when the main printed directions were followed. For sale by Osburn & Shewmaker.

The Verdict Unanimous.

W. S. Sulz, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hare, druggist, Beloit, Ohio, affirms: "The best selling medicine I have ever handled in my years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half a dollar a bottle, at J. Hodgkinson's druggist.

A Woman's Discovery.

Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking the first dose that she slept all night and with one bottle was miraculously cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hantrick & Co., of Shreveport, N. C.—Get a free trial bottle at J. Hodgkinson's Drug Store.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is the only remedy that can always be depended upon for bowel complaint in all its forms; 25 and 50-cent bottles for sale by Osburn & Shewmaker.

A Light Vote.

New Mexico has voted for delegates to a constitutional convention. The Democrats refused to vote on account of ailed unfair representation, and the consequence is a delegation solidly Republican. At Albuquerque, out of 1,000 voters, but 100 did not vote, the result was very light everywhere.

Buckin's Arsenic Salve.

The best salve in the world for cuts, bruises, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles if not pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 5 cents per ounce. For sale by Hodgkinson & Co.

It should be generally known that Dr. Henry's Dandilion Tonic insures a hearty appetite and increased digestive power, and strengthens and lessens spirits, overcomes lack of energy and wakefulness, and will infuse new life and strength into the weakest and ill. sold by William Pininger.

In 1853 "Brown's Bronchial Troches" were introduced, and their success as a cure for Colds, Coughs, Asthma and Bronchitis has been unparalleled.

SENSATION

Second in a Great Buffalo Race in 2:15.

L. Lee received a dispatch from Buffalo last evening saying that in the great Buffalo race Nelson won in 2:15, 2:17 and 2:15, with Sensation second in 2:15.

Sensation will be remembered as being the winner of all the races he was entered in during the Nevada State Fair last fall, and his record at the close of his races last year was 2:22.

His first race in the 2:21 trot at Detroit, July 24th, was not a very successful one. He started in the race with eleven others and was unfortunate enough to draw the twelfth position. With this position and the drivers and judges against him he was beaten. In this race he made the best showing in the sixth heat. Following is an extract from the Detroit Free Press which speaks of the heat: Seymour Belle had the call in the pools for the sixth heat of the 2:21 trot. Sensation got away in the lead and held it to the stretch, when Seymour Belle came up at a grand clip and won the heat and race. Time, 2:19 1/4.

MONBARS.

What an Exchange has to say of Mr. Mantell's Impersonation.

Robert Mantell has long been recognized as the greatest romantic actor in this country, and his impersonation of Monbars in the play of that name, which he is to produce at the Opera House on Wednesday evening next, August 14th, is said to surpass anything he has yet done in this country. The Cincinnati Telegram says:

A brilliant actor, or, composed of the elite of Cincinnati society, filled the Grand Opera House last night with a most brilliant audience. The audience was aroused early to the first act by Monbars' resolute in acting as he counteracts the wound made by a mad dog whilst resounding the heroine. From that point the excitement increased slowly but surely, leading quite naturally up to the powerful and thrilling climax in the fifth act.

The applause was frequent throughout, Mr. Mantell being called before the curtain-came down and at the end of the last act receiving quite an ovation.

Professor Samwell's trained animal show played to a crowded house last night and delighted the people. The acting by the ponies, dogs and monkeys was indeed very good. Professor Samwell was requested to show again to-night, which he consented to do, and also decided to give all an opportunity to see his world-renowned tamed animals by reducing the price. General admission, 25 cents; small children, 10 cents. Children, especially, should see this show.

White cards are considered in the best taste, even among the best colored society.

The gentleman's card should contain nothing except the name and address of the caller. It is bad taste to have one's business written on it, particularly if he is a housebroken or traveling man.

When calling on anybody at a hotel send your card and await a reply in the reception room. It is not good form to visit the bar more than twice while waiting.
